## POLICE CHIEF MUST HAVE IRON NERVE

The cleanup of Tonopah has started in earnest. With a new constable and chief of police, the city is being put on a new basis. Following the resignation of W. H. Cochran, which was accepted yesterday, the moral life of this community is to be purified. No longer will the rowdy roads at all be expected, but on the other hand there is going to be a new order of things prevailing in this town.

Great care should be exercised by the new business owners in selecting a constable whose duties include that of chief of police. They should select the man of good and every applicant for the position and eliminate those who are not. They should select the man who is all man. Who ever is selected will have a man's job to fill in cleaning the rowdy element that has infested this district for such a long period. He must be on the job all the time and appoint for deputies only men in whom he has the greatest confidence and who also are possessed of iron nerve and who will go the limit in bringing about a peaceful and law-abiding community.

In making the fight for a set of officers who will fearlessly perform the duties that are incumbent upon them, the Bonanza has no ulterior purposes. It has no favored candidate for any office but on the other hand will give its most loyal and wholehearted support to the man appointed constable who will assist in bringing order out of chaos. By all means politics should be eliminated and the constable should have great broad-minded men as deputies who will perform their duties without fear or favor.

When order again prevails in Tonopah and the high and lowly may go about their peaceful pursuits without fear of molestation upon the part of thugs and rowdies, then will Tonopah prosper and grow. We will receive consideration at the hands of the investor when he realizes that he is to receive protection both as regards body and property.

## GOVERNOR BOYLE, WHERE DO YOU STAND?

The Bonanza desires to ask a few pertinent questions of Governor Emmett D. Boyle regarding the receivership of Frank L. Wildes in the case of the State Bank & Trust company, and also concerning the actions of Judge Frank P. Langan in his handling of the case.

Do you know, Governor Boyle, the affairs of the State Bank & Trust company have been juggled and injudiciously handled since they became a matter of court record in 1911 when the receiver was appointed? Do you know that only 15 per cent in dividends has been paid the stockholders, and that Judge Langan has decided upon a fee of \$90,000 for his man Friday, Wildes?

Are you aware of the fact that the legislature investigated Judge Langan less than a year ago, and that impeachment proceedings followed? Do you know that the house voted by a majority of three to oust this man Langan from his high judicial position, but that he was saved from the disgrace that would naturally have followed had not the senate by a vote of two saved his skin?

Will he be considered impeachable? Will he be considered against this man Langan?

Governor Boyle, are you going to sit idly by, and not heed these appeals, which, in reality, are demands that you give the legislature of this state a chance to show by deeds and actions whether the members seriously and most strenuously object to the tactics which have been pursued by Judge Langan in his adjudication of the affairs of the State Bank & Trust company?

By your actions as will you be judged, Governor Boyle, and the people demand that you render at once a decision in this all important question.

## COPPER CAMPS ARE NOW REJOICING.

There is rejoicing throughout the copper camps of this country over the resumption of operations of the copper mines. Ely, Butte, Globe, Anaconda, Birmingham and other sections are feeling elated over the trend of events. The nine-month shut-down has been a nightmare which the districts hope never to see again. From day laborer to bank president, the lack of industrial activity has been keenly felt and all are brought to a realization of the fact that it is operating in industries which make good times.

As a result of the renewed activity in copper mining, railroad business will be increased, additional electric power will be demanded, all kinds of manufacturing will feel the benefit and every line of business will share in the millions that will again be spent for payrolls and supplies.

With activity of an industrial nature prevailing in the copper camps, the gold and silver regions will be greatly benefited. Those who have had a nest-egg hidden away will be inclined to do a little speculating in view of the fact that they are almost sure of employment. Ely people have a right to feel happy, and while it will probably be three or four months before the mines will be operating at capacity, the effect is already being felt, according to advices received in Tonopah, as the copper mines are working close to 30 per cent capacity.

## "PEACE DOLLAR" IN CIRCULATION.

The brand new silver dollar known as the "Peace" dollar is now in circulation. The real article varies quite a bit from the advance descriptions of it. There were as many rumors regarding this "peace" dollar as there were on the Russian Austrian battlefront during the Carpathian campaign.

The first rumor stated the design would be that of an eagle clutching a broken sword. The storm of popular protest against such a design upon an American coin, which would have represented impotence, caused this to be abandoned.

It was then stated the design would be that of a peace dove carrying an olive branch. This story appeared to be the authentic one.

The appearance of the dollar itself, however, clearly proves that the author of the peace dove story was, to say the least, no ornithologist. If the robust, life-sized American eagle on the new dollar is a dove, then a lion is a lamb. It is the same old-fashioned American eagle which has adorned American money for these many generations. True, he is clutching what may be, to the vivid imagination, an olive branch, but the big thing is that it is an eagle, and not a dove, which occupies the foreground on the dollar.

Under the eagle is the word "Peace." Taken together it is very significant, for the pose of the "Bird of Freedom" clearly carries the impression that he is in a position to command peace and, if necessary, fight for it, which probably in this unregenerate day is, after all, the best guarantee of peace. It develops that the author of the story regarding the peace dove not only lacked expert information regarding the bird world, but he also was not familiar with the laws of the United States, which makes it mandatory for the American dollar to bear upon it a design of the American eagle and that of no other bird.

## READ TODAY'S NEWS WHILE IT IS FRESH

The Bonanza is now delivered by carrier for \$1 a month. Enter your subscription and read today's news while it is red hot. Why wait until tomorrow to read what is happening today? The Associated Press dispatches received by this paper take you through the happenings of the world of this day, and all news in the morning publications is simply a rehash of what has happened the day previous.

## MAY HAVE TO CHANGE FLAG OF ENGLAND

(By Associated Press) LONDON, Jan. 17.—The question has been raised whether the design of the union jack and royal coat of arms of Great Britain will have to be altered now that Ireland has become a free state within the empire.

The union jack has the cross of St. George superimposed upon the cross of St. Andrew. The royal coat of arms has the Irish harp in one of its corners. At the college of arms in London it was stated that certain modifications were under consideration and that if any action were taken it would be done by the king in council. No parliamentary action will be necessary.

## LONDON SOOT IS CAUSE OF GREAT WASTE

(By Associated Press) LONDON, Jan. 17.—Three million tons of potential fuel in the form of soot, representing a direct waste of 6,000,000 pounds, escapes into the atmosphere of London annually. It is estimated by the committee on smoke and noxious vapors that the report of the committee represents the end of an inquiry begun early in 1914. It recommended the adoption of smokeless methods of heating.

## PURE FOODS

Housewives that realize the value of pure foods—that take special pride in uniform and wholesome bakings, never fail to use

## CALUMET BAKING POWDER

You have positive proof of the purity—contains only such ingredients as have been officially approved by the United States Pure Food Authorities.

Contains more than the ordinary leavening strength—therefore you use less. It goes further—lasts longer. That's why it is used by more leading chefs, domestic scientists, restaurants, hotels, railroads than any other brand on earth.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

## WAGE DISPUTE OF RAILROADS TO CONFERENCE

(By Associated Press) WASHINGTON, D. C., Jan. 17.—Pending differences between the railroads and employees in the transportation divisions, most of whom are affiliated with the four railroad brotherhoods, will be submitted to a national conference between railroad executives and representatives of the unions, under a decision reached at the conference brought about by Secretary Hoover between the presidents of the larger railroads and heads of the brotherhoods.

See Tent and Fair Bank cards at Bonanza.
